👤 PROFILE

I'm a sophomore in the Department of Automation at Tsinghua University, interested in reliable and adaptive large language model systems through post-training, uncertainty-aware learning, and continual learning for agents.

🎓 EDUCATION BACKGROUND

Tsinghua University, Beijing

2024.8 ~Present

Major in Automation, Minor in Economics and Finance

🧪 RESEARCH INTERESTS

- **LLM Post-Training:** RL and on-policy post-training for reasoning, alignment, and agent capabilities, including RLHF/RLVR, OPD, and OPSD-style methods.
- **LLM Uncertainty:** uncertainty estimation and calibration for LLMs, and its use in verification, decision-making, and reliable deployment.
- **Continual Learning for Agents:** memory, reusable skill learning, and long-horizon adaptation through interaction.

⚙️ SKILLS

- **Programming and Infrastructure:** Python, Linux, Bash, Git, Docker, Kubernetes
- **ML and LLM Tooling:** PyTorch, Hugging Face Transformers, Verl, Ray; scalable training, evaluation, and experiment workflows
- **Post-Training and Agents:** PPO, GRPO, RLHF/RLVR, agentic RL, OPD/OPSD, and skill learning

♥️ HONORS AND AWARDS

Tsinghua University Comprehensive Excellence Scholarship	Nov. 2025
Tsinghua Spark Scientific and Technological Innovation Fellowship (Top 1%)	Jun. 2026
Beijing Natural Science Foundation Funding (Top 2%)	Jun. 2026
Third Prize, "Challenge Cup" Beijing & Tsinghua Extracurricular Researches and Tech Products Contest for College Students	May 2025

📄 OTHERS

- Tsinghua University 5-Star Volunteer
- Tsinghua University Student Social Practice Bronze Medal
- Excellent Member of the Chinese Communist Youth League, Tsinghua University
- Proficient in English (IELTS 7.5, CATTI Level 3 Translation Certificate)
